ABOUT THE PROJECT

CUS is a one-man metal project blending introspection with intensity. Drawing from progressive metal, alternative, djent, and progressive rock, CUS delivers emotionally raw lyricism paired with explosive, dynamic instrumentals. His music channels personal struggle into volatile sounds and thought-provoking themes that resonate deeply with listeners. CUS is a project by Marcus Ganado, a Maltese artist based in Berlin, who is also involved in projects like Minivan and All in Flux.
